FOR IMMEDIATE RELEASE

Public can learn more about Transportation Services Coordination Plan

BOISE - The public will have the two opportunities next week to learn more about a draft of the Phase 1 Regional Transportation Coordination Plan (RTCP) for Ada and Canyon counties.

Public comment also will be collected at the open houses, which are scheduled for 4 p.m. to 7 p.m. at the following locations:

- Tuesday, April 17 in the South Casler Room of the Nampa Civic Center, 311 3rd St. S in Nampa.
- Thursday, April 19 in the Boise City Council Chambers, third floor, Boise City Hall, 150 N. Capitol Blvd.

The RCTP has been developed through the sponsorship of Valley Regional Transit (VRT) on behalf of local stakeholders within its service area (Ada and Canyon counties).

The purpose for developing the plan is twofold:

- 1). To respond to a federal requirement that mandates the development of a coordinated human services plan in order to access applicable federal funds.
- 2). To examine the potential to complement, through coordination activities, existing public services provided within Ada and Canyon counties.

If you cannot attend an open house, a copy of the draft report, along with a comment sheet, will be available on the VRT website beginning Tuesday, April 17. The address is: www.valleyregionalttransit.org <<http://www.valleyregionalttransit.org>>. The deadline for providing comments is Friday, May 4.
