

Why State Street/State Highway 44?

State Street/State Highway 44 is the only east-west connection north of the Boise River that links communities in Canyon and Ada Counties. Given the regional importance of this corridor and the following characteristics, agencies are working together to improve the corridor.

Transit

- Highest ridership route of the regional transit system

Roadway

- Heavy commuter route with congested conditions today and projected high traffic volume growth

Land Use

- Projected population and employment growth
- Preservation of existing neighborhoods
